

QUALITY POLICY

ELPLAST EUROPE SP. Z O.O.

It is Company's policy to manufacture high quality products that meet our Customers' requirements and that are in accordance with the applicable regulations and the safety standards protecting human life and health, and that are produced in harmony with the natural environment.

ELPLAST EUROPE'S PRINCIPLES:

We execute our Company's policy through:

- All employees' self-regulation and their responsibility for quality and safety of the product and fulfilment of legal requirements and customers' expectations,
- Maintaining and constant improving of Integrated Management System and the Food Safety Management System according to the Standard ISO 22000 and the Standard BRC/Packaging and Packaging Materials,
- Observance of the Good Manufacturing Practice and the Good Hygiene Practice during production of the articles intended to come into contact with food,
- Mutually beneficial cooperation with the proven suppliers,
- Active development and improvement of the production technology,
- Continuous raising of our employees' awareness and their motivation,
- Ongoing monitoring of the market in order to acquire new customers.

The Management Board of Elplast Europe Sp. z o.o. ensures that the present Quality Policy is connected with the role of business and it guarantees development of the Company and fulfilment of our customers' expectations. The Management System is implemented, acknowledged and effectively maintained.
